What is Tex-CHIP?

- The Texas Counselors and Healthcare Integration Project (Tex-CHIP) program offered within the Counseling and Educational Psychology Dept. at TAMU-Corpus Christi provides integrated healthcare training and evidence-based treatments to counseling students and the community.

Panel Purpose:

- Each Tex-CHIP panel discusses a provided case study referencing a key topic (such as anxiety, depression, crisis, family, trauma, & substance use) through an interdisciplinary lens.

Panelist Information:

- Panel discussions occur one Saturday a month from 9am-10am.
- To be an eligible panelist, you must be a:
  - Medical professional (MD/NP/PA/PharmD);
  - Licensed Psychologist (LPA/PsyD/PhD);
  - Dietician (RD/LD);
  - Mental health professional (LPC/LMFT/LCDC); or
  - Case Manager (LSW or similar).
- Each panelist will receive $100 in compensation.
